USE CAUTION WHILE OPERATING AND CLEANING THE COFFEE ART PLUS MACHINE

WARNING:
TO PREVENT ELECTRICAL SHOCK, DO NOT REMOVE SIDE OR BACK PANELS FROM THIS MACHINE. NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO AUTHORIZED SERVICE PERSONNEL ONLY.

WARNING:
IF WATER OR SMOKE IS COMING FROM INSIDE THE MACHINE, TURN OFF MACHINE IMMEDIATELY. UNPLUG THE MACHINE, TURN OFF WATER SUPPLY, AND CONTACT AN AUTHORIZED SERVICE AGENT.

WARNING:
DO NOT MOVE MACHINE WHILE IT IS STILL CONNECTED TO UTILITIES.

CAUTION:
ALL DISPENSED PRODUCTS ARE EXTREMELY HOT! USE CAUTION WHILE OPERATING ALL FUNCTIONS. KEEP HANDS AWAY FROM FOAMER HEAD/COFFEE SPOUT/SPLITTER WHILE DISPENSING OR CLEANING (EXTREMELY HOT).

CAUTION:
DO NOT PLACE HANDS INSIDE MACHINE WHILE OPERATING, EXCEPT WHEN FOLLOWING CLEANING PROCEDURES.

CAUTION:
DO NOT TILT MACHINE TO EITHER SIDE (VERY HEAVY).

CAUTION:
DO NOT PLACE LIQUID CONTAINERS (SYRUPS, MILK, ETC.) ON TOP OF THIS EQUIPMENT.

- Press the EXTRA HOT LATTE STEAM icon to steam extra hot latte milk.
- Press the EXTRA HOT CAPPUCCINO STEAM icon to steam extra hot cappuccino milk.
- Press the EXTRA HOT SOY STEAM icon to steam extra hot soy milk.
- Press the SINGLE ADD SHOT icon for drinks requiring one espresso shot.
- Press the MED DOUBLE SHOT icon for drinks requiring two espresso shots.
- Press the MEDIUM AMERICANO icon for a medium americano.

Extra Hot Tab

User interface configuration may vary.
Introduction | Machine Description

Bean Hoppers

Fill the hoppers on top of the machine with whole beans only. The machine grinds the beans freshly for each shot.

The left hopper is intended for regular espresso beans.

The right hopper is intended for decaffeinated espresso beans.

Purge/Steam Buttons

To purge the steam wand after each use, press purge button 1 or 2. It will purge for one second (button 1) and two seconds for button 2.

Programming may vary.

Hot Water Buttons

To dispense hot water from the machine, press hot water button 1 or 2. Button 1 will dispense for 2.5 seconds and stop automatically. Button 2 will dispense for 5 seconds and stop automatically.

Programming may vary.

Bean Hopper Slides

The bean hopper slides are used for locking the hoppers into position. To release the hoppers for weekly cleaning, push the slides inward and then lift up. Refer to page 22 for instructions.
Steam Wand with finesteam©

The steam wand is movable and has a hard plastic handle for handling when it is hot.

The PEEK steam wand material dramatically lowers the wand’s surface temperature. Unlike standard stainless steel wands, milk doesn’t bake onto the wand. Milk residue easily wipes clean, even later on after steaming. The PEEK steam wand is also much safer to touch right after steaming.

Steam wand with proprietary air injection and auto shut-off guarantees consistent milk texture and temperature while allowing users the freedom to multitask.

Cleaning Tablet Funnel

The cleaning tablet funnel is located between the two bean hoppers. Only Schaerer Cleaning Tablets should be dropped into this funnel during the daily cleaning procedure. Refer to pages 19-20 for daily cleaning instructions.

Use only Schaerer Cleaning Tablets (Item # 65221) for the daily cleaning procedure. Refer to page 11 for reordering cleaning tablets.

Hot Water Spout and Coffee Spout

The hot water outlet is used for pre-heating ceramic cups and quick rinsing of utensils.

The coffee spout can accommodate tall cups.
Grounds Bin

The grounds bin is located below the coffee spout. It holds the used grounds which are disposed of after each espresso shot is brewed. The bin slides straight out from the machine and must be emptied periodically or when prompted on the display.

Drip Tray Grill and Drip Tray

The drip tray grill is removable for easy cleaning and access to the inside of the drip tray. The drip tray is connected to a flexible hose which should be connected to a fixed drain line. The purpose of this ‘basin’ is to funnel any spilled liquids down the drain. To prevent blockage, we recommend that you avoid flushing large quantities of milk and/or used coffee grounds down the drain.

Card Reader

For use by manufacturer authorized service agent.

Utility Hook-Up Requirements

POWER, WATER SUPPLY, AND ACCESS REQUIREMENTS

- Receptacle type: NEMA L6-30R.
- 3 Prong twist-lock.
- Breaker panel: 30 Amp dedicated 220V single phase circuit.
- Actual maximum load: 24 Amps.

- Access hole with collar (no sharp edges).
- Located centrally under machine for water and drain hose.
- Diameter: Minimum 3" (80mm).

- Water shut-off valve with 3/8" (9.5mm) compression fitting.
- Back flow preventer in accordance with local requirements.

- Drain pipe to floor drain.
- Copper or PVC in accordance with local health codes and regulations.
- Diameter: 1.5" (38mm) or larger.

Notes: Access hole is only required if any of the utility hook-ups are located under the counter. Drain pipe is only necessary if the drain line from the drain tray is mounted fixed. A removable drain tray does not require a drain pipe since it will be emptied by the operator.
General Operation

Introduction

This chapter describes the basic functions of the espresso machine. Read the instructions carefully to ensure smooth routine operation.

Filling Bean Hoppers

Only use whole beans in the bean hoppers!

Never reach with your hands into the bean hoppers when the machine is switched on. When refilling the bean hoppers, do not reach into the grinder and do not press any of the product buttons!

1. Remove the lid from the bean hopper.
2. Fill with whole beans maximum 1 kg (2.2 lbs) and close the lid.

A well-closed lid prevents loss of aroma.

Preparing the Machine for Operation

Prior to switching on the machine, check the following:
- The fresh water supply is open.
- The hoppers are filled (see above).
- The grounds bin is empty.
- The machine is connected to the power supply.
- Check whether the bean hopper slides are open.

Switching On the Espresso Machine

Switch on the espresso machine by pressing the icon.

If the machine has been switched off for a long period of time, the message “heating” appears on the display.

A product selection can be made when the message “select product” appears on the display.
Switching Off the Espresso Machine

If the espresso machine is not used for longer periods, i.e. overnight, it can be switched to standby mode. In this mode, the boiler is not heated and no beverages are available.

1. Press the icon until the message "<< Standby >>" appears on the display.

Extended Idle Time

1. Perform the daily cleaning:
   (See section "Daily Cleaning" on pages 19-20).
2. Switch the machine to "<< Standby >>" (Press the icon).
3. Close the shut-off valve from the fresh water supply.
4. Disconnect the machine from the power supply.
5. Vacuum the coffee beans from the bean hoppers.
6. Store the machine in a dry and clean location. On premises where temperatures can drop below zero, the boiler has to be emptied. To empty the boiler, contact a manufacturer-authorized service agent for assistance.

Removal / Relocation / Disassembly

Contact a manufacturer-authorized customer service agent.
Beverage Output

Foamed and Steamed Milk

Steam wand is extremely hot!

Always wipe steam wand with a thick, clean, damp cloth and purge after each use. Refer to page 21 for details.

Foamed Milk

1. Portion milk into steaming pitcher.

2. Submerge steam wand into pitcher and make sure wand points straight down. Press the CAPPUCCINO STEAM or EXTRA HOT CAPPUCCINO STEAM icon.

For Extra Hot
Press the EXTRA HOT tab first then press the EXTRA HOT CAPPUCCINO STEAM icon.

Steamed Milk

1. Portion milk into steaming pitcher.

2. Submerge steam wand into pitcher and make sure wand points straight down. Press the LATTE STEAM or EXTRA HOT LATTE STEAM icon.

For Extra Hot
Press the EXTRA HOT tab first then press the EXTRA HOT LATTE STEAM icon.
### Soy Steam and Espresso

All beverages dispensed by the machine are extremely hot!

#### Soy Steam

1. Portion soy milk into steaming pitcher.

2. Submerge steam wand into pitcher and make sure wand points straight down. Press the **SOY LATTE STEAM** or **SOY CAPPuccino STEAM** icon.

**For Extra Hot**

Press the EXTRA HOT tab first then press the EXTRA HOT SOY STEAM icon.

#### Espresso Shot

1. Place cup under coffee spout and press the **SINGLE ADD SHOT** or **MED DOUBLE SHOT** icon.
Cappuccino and Latte

**Cappuccino**

1. Portion milk into steaming pitcher.

2. Submerge steam wand into pitcher and make sure wand points straight down. Press the **CAPPUCCINO STEAM** or **EXTRA HOT CAPPUCCINO STEAM** icon.

   - **For Extra Hot**
     - Press the EXTRA HOT tab first then press the **EXTRA HOT CAPPUCCINO STEAM** icon.

3. Place cup under coffee spout and press the **SINGLE ADD SHOT** or **MED DOUBLE SHOT** icon.

4. Fill cup to top with foamed milk.

**Latte**

1. Portion milk into steaming pitcher.

2. Submerge steam wand into pitcher and make sure wand points straight down. Press the **LATTE STEAM** or **EXTRA HOT LATTE STEAM** icon.

   - **For Extra Hot**
     - Press the EXTRA HOT tab first then press the **EXTRA HOT LATTE STEAM** icon.

3. Place cup under coffee spout and press the **SINGLE ADD SHOT** or **MED DOUBLE SHOT** icon.

4. Fill cup to top with steamed milk.
Always run the daily cleaning procedure when prompted by the machine display. Refer to page 19-20 for details.

Empty the grounds bin regularly and when prompted by the display. Rinsing it nightly will prevent caked-up grounds from forming.

When making two 16oz drinks at a time, steam 32oz of milk.

Always wipe steam wand with a thick, clean, damp cloth and purge after each use. Refer to page 21 for details.

Periodically wipe the machine exterior thoroughly with a clean, damp cloth to remove residue from steamed milk and espresso shots.
Daily Cleaning

Read and follow the instructions carefully before you begin the daily cleaning procedure. This procedure should be performed on a daily basis or when prompted by the machine display.

Never reach into the machine or under the coffee spout during the automatic cleaning cycle!

The status of the cleaning and some cleaning steps are shown in the display.

1. • Use only Schaefer cleaning supplies for this procedure.

2. • Fill large steaming pitcher with 16oz of water and mix in (1oz/30ml) Schaefer Steam Wand Cleaner.

3. • Submerge steam wand into steaming pitcher and press the LATTE STEAM icon to heat solution. After steam wand shuts off automatically then let it soak for 5 minutes.

4. • Press the icon to go into the service menu.

5. • Immediately remove grounds bin with in 6 seconds.
   • Empty coffee grounds into trash can. Wash, rinse, sanitize bin and set aside.

6. • Remove metal shield above grounds bin and set aside.
8. • Display will read, “Insert one cleaning tablet”. Lift lid and drop in one Schaerer cleaning tablet. Close lid. 
   • Press “OK” on the screen.

11. • After cleaning program completes. 
   • Refill beans if necessary. 
   • Wipe drip tray & grill. 
   • Press “Finish” to return to normal operating mode.

12. • When automated cleaning cycle is complete, empty pitcher into drip tray. Wipe steam wand with a thick, clean, damp cloth. Be careful, wand will be very hot!

14. • After wiping off wand, point it toward drip tray and purge by pressing the button or any steam function.
Cleaning the Steam Wand After Each Use

Always use a cloth and/or steam wand handle (grip) when cleaning or steaming milk. Direct skin contact with metal may result in burns.

1. • Once milk steaming has stopped, remove pitcher and immediately wipe steam wand with a thick, clean, damp cloth. Be careful, wand will be very hot!

2. • After wiping off wand, point it toward drip tray. • Press button 1 to purge steam wand.
Weekly/As Needed Hopper Cleaning

Read and follow the instructions carefully before you begin the weekly hopper cleaning procedure. This procedure should be performed on a weekly basis.

Do not clean the bean hoppers in the dishwasher.

When refilling the bean hoppers, do not reach into the grinder and do not press any of the product buttons!

If the oil from the bean remains, use non-abrasive dish washing soap.

1. ▶
   • Turn machine OFF.
   • Push the bean slide inward to lock the beans and release the hopper.

2. ▶
   • Lift the hopper upward to remove from the machine.

3. ▶
   • Empty the beans into another container. Use warm water to wash, rinse and sanitize.

4. ▶
   • Dry the hoppers thoroughly with a clean, damp cloth.

5. ▶
   • Place hopper back on to machine.

6. ▶
   • Pull the bean slide outward to release the beans and lock the hopper into place. Repeat these steps for the other hopper.
   • Turn machine back ON.

How to Get Help

Hours of Business

Normal Hours
During normal business hours, a Schaerer representative will answer your call directly. In case all lines are busy, please leave a message on our voicemail system according to the instructions that you hear on the voicemail.

Monday through Friday: 8:00AM to 8:00PM EST
Weekends: 8:00AM to 6:30PM EST

Messages received during business hours will be returned in the order they were received.

Paging Hours

Outside of normal hours, you can use our voicemail system to page an on-duty technician for emergencies. Our voicemail paging system is active during the following hours:

Monday through Friday: 8:00PM to 11:59PM EST
Weekends: 6:30PM to 11:59PM EST

Messages received during paging business hours will be returned within ½ hour. Please do not use the voicemail paging system for general questions or other non-emergency requests!

*Messages received outside normal and paging hours will be returned the next day.

How to Contact Us (emergencies, machine is not working)

Call our toll free number at 888-989-3004.
• Press "1" for a list of departments.
• Press "1" to get service on your coffee machine.
• During normal business hours, a Schaerer representative will answer your call directly.
• Should you reach voicemail, please leave a message containing the following information:
  1. Your phone number, including the local area code.
  2. Your name.
  3. The store’s contact name and phone number including area code.
  4. The store address.
  5. The machine’s serial number.
  6. A brief description of the problem.
• Leaving a message in the Service Dispatch box will page the on-duty technician (during paging hours).

Please do not use this procedure for general questions or other non-emergency requests!

Onsite Response Times

If a service request comes in before 12:00NOON EST, all attempts possible will be made for same day service.
If a service request comes in after 12:00NOON EST, same day service will be attempted, otherwise, service will be scheduled for the next day.
